Workshop 16: *“Investment of DB Plan Assets”*

This workshop will focus on a number of current issues in pension fund investment, based on two recent OECD working papers. The first part of the workshop will focus from a legal perspective on the forces that drive the practice of risk management at defined benefit (DB) pension funds in Germany, Netherlands, United Kingdom and the United States in the aftermath of the pension storm. The second part of the workshop will focus on the recent OECD working paper on the impact of the financial crisis on DB pension plans and the need for counter-cyclical funding regulations.
