Workshop 19: *"Global Plan Governance Policies"*

The multinational company is increasingly confronting the need to manage benefit related risk on a global basis through an appropriate plan governance global policy. Guidelines issued by the Organisation for Economic Co-operation and Development ("OECD Guidelines") on 7 July 2009 established a set of criteria and objectives for cross border plan governance management by a multinational company. This Workshop will review the OECD Guidelines and then explore the legal components and fiduciary considerations to be factored into the development of a global plan governance policy.
