Workshop 20: *“Solvency Supervision of Pension Providers”*

This workshop will focus on the principle of risk-based supervision as method of solvency supervision of pension providers. The workshop will discuss developments in the area of risk-based supervision, such as Solvency II, which is the European framework for assessing the solvency of insurers, including pension insurers, as well as pension funds. Next to this development the workshop will also discuss best practices in the area of risk-based supervision.
